BRITISH NAVAL BASE AT BERMUDA TO BE UTILIZED

Four Armoured Cruisers to be Stationed There During the Winter Months.

DEVELOP BERMUDA AS A DOCK YARD

Important in Consideration of Opening of Panama Canal in Short Time.

London, Aug. 5.—The Washington reports of Great Britain's intention to establish a great naval base at Bermuda are regarded here as a gross exaggeration and misconception of the Admiralty's plans relative to the naval utilization of the island.

It is admitted that the Admiralty is taking measures to increase the British squadron in those waters and to develop Bermuda as a dockyard and coaling station but it is declared that this is merely to remedy a mistake that was made under Admiral Fisher's regime.

Bermuda, it is argued, has been a British possession since 1609, long before the Monroe doctrine existed, and it became a regular coaling station in 1869, and was made the headquarters of the North American and West Indies squadron years ago. Under Lord Fisher's naval redistribution scheme, owing to the naval pressure in Europe, the number of ships that had headquarters at Bermuda was reduced, but the dockyard was always maintained.

So far as is known, all that the Admiralty now intends to do is to station four armored cruisers in the West Indies during the winter months. No battleships are going there.

AUSTRALIA TO EXHIBIT AT FAIR

To Participate in the Panama Pacific Exposition at San Francisco.

London, Aug. 5.—Although the Mother Country has refused to participate in the Panama Canal Exhibition, Australia intends to be represented.

The Morning Post's correspondent at Sydney, N. S. W., says the Commonwealth Government has guaranteed £20,000, and New South Wales, Queensland and Victoria have agreed to co-operate in a joint exhibit. Traders here are convinced that a growing market in the United States will be assisted by the opening of the Panama Canal and the reduction of the United States customs duties foreshadowed in the new tariff bill.

Hon. Mr. Glynn, Minister for External Affairs, has sketched out an extensive scheme for the advertising of Australia in the United States, and the appointment of a number of commercial agents in the various places there.

AMERICAN GIRL ROBBED OF $3,200

Florence, Aug. 5.—Jewelry to the value of $3,200 was stolen yesterday from the apartment of Miss Blood, an American resident of Florence, who is a friend of Princess Chica, sister of former Queen Natalie of Servia. She had rented the Villa Gamberal, the home of the Princess, for the season. The apartment was ransacked in the absence of Miss Blood and the safe opened, the key having been obtained by the thieves by means of a forged letter. The fact that a band was connected in the robbery was shown when a letter telling of the plot was found in the apartment.

GERMAN SPECIAL CRUISER SQUADRON

Berlin, Aug. 5.—The Tageliche Rundschau says that a special cruiser squadron is going to be detailed to look after German interests abroad. The cruiser Yorck, the newspaper says, is being re-constructed and several cruisers will be ordered to serve with her. A second large cruiser will be placed in this service later and the cruisers to be built after 1917 are to be formed into a flying squadron. This programme goes into effect next spring.

Countess in Divorce Case

COUNTESS SZECHENYI
BY JOHN S. SARGENT

The Countess Laszlo Szechenyi, formerly Miss Gladys Vanderbilt, youngest daughter of the late Cornelius Vanderbilt, of New York, is on the point of demanding a divorce from her husband.

The Countess' reason for this step, it is stated, is that the Count lost almost all his wife's dowry on the Bourse and in other gambling speculations. It is alleged that he has spent $7,000,000 since his marriage in New York on January 27, 1908.

Fredericton Junction, N. B., Aug. 5.—The lightning recently struck the Baptist Church and running down the chimney, shattered it so badly that a part of it will have to be taken down. MacKenzie, physician at the Brompton Hospital for consumption, making a general survey of the results of the tubercular treatment, said it was not to be maintained that the cures had been a success. Antagonistic germs in the body, he said, militated against it. The treatment is still on trial. Dr. MacKenzie said, but it must be acknowledged that the results so far have been far from brilliant and are unconvincing.

SUBSCRIBE FOR POOR MR. BRYAN

Austin, Tex., Aug. 5.—It is planned by the Democrats of Texas to raise a large fund by popular subscription for the benefit of the Secretary of State, Mr. Bryan. The money will be paid over to him on the contingency that he agrees to abandon the lecture platform and devote his entire time to the duties of the State department. The movement was started a few days ago in Orange, Texas, and Democrats in that town have already pledged in writing contributions amounting to more than four thousand dollars to the fund. Subscriptions will be taken in other towns of the state, and John McKinney, chief promoter of the idea, says he is confident as much as $50,000, or whatever sum Mr. Bryan may need to supplement his salary, can easily be raised.

Mr. Guthrie was elected Deputy Grand Lecturer of the Sovereign Grand Lodge of British America. The next meeting will be held at Regina.

During their stay in Newfoundland Mr. and Mrs. Guthrie were the guests of Mr. and Mrs. H. E. Cowan. Mr. Cowan was the candidate opposed to Premier Morris in the last election in Newfoundland.

Horrible Atrocities of Band Of Desperadoes in Mexico

Mexico City, Aug. 5.—How Matthew Gourd, an American farmer, was lashed to a tree and forced to witness an attack on his two daughters by bandits, is a story brought here today from Tampico.

The person relating the story said the bandits first requested a cigarette from Gourd, who complied, and a peso was offered in payment for them. Gourd was then tied and with a knife at his throat was ordered to produce his money. He told his seventeen-year-old daughter to bring the money from the house, and on her appearance she was seized and together with her sister aged thirteen years, was mistreated. When the rebels left the women untied the father, who reported the assault to the authorities at Tampico. One version of the affair is that the assailants were not rebels, but peons employed on Gourd's own farm near the Atascador colony.

Premier Flemming, who arrived last evening from Woodstock for the meeting of the Provincial Government which opens this evening, expressed himself as much pleased with the satisfactory manner in which the provisions of the new act were being worked out. The details of their duties, apparel and powers, have been worked out by a committee of women social workers and the chief of police. The chief had considered assigning the police women to stations in the red light districts, but it was decided they would be of greater service in the parks and other places of recreation.

The police women will visit the public dance halls, excursion boats, beaches and railway stations, and will try to keep young folks off the streets late at night. They will obtain information rather than make arrests, although on occasions they may be called upon to make some one.

JOHN LYND WILL INVESTIGATE THE MEXICAN TROUBLE

President Wilson will Take No Decided Stand Until New Appointee

HAS HAD TIME TO THOROUGHLY SIFT

The Exact Feeling of Mexican People in Regard to U. S. Mediation.

Washington, Aug. 5.—That no announcement of policy or further steps will be taken by President Wilson in the Mexican situation until former Governor John Lynd, of Minnesota, personal representative of the President, arrives in Mexico City and familiarizes himself with conditions there, was made clear at the White House today.

Mr. Lynd carries instructions to talk informally with prominent Mexicans. Washington officials indicated that no steps toward a mediation policy would be attempted until after Mr. Lynd had sounded out sentiment in Mexico, and determined whether the assistance of the United States in adjusting the dispute will be received.

Mr. Lynd will inform inquirers on the authority of President Wilson that only a government constitutionally set up would be recognized by the United States. This will involve the resignation of Provisional President Huerta in favor of the previous president selected by the Mexican factions. The new president to be first appointed minister of foreign relations in conformity with the law of succession in Mexico.

It was pointed out in administration circles today, that while Mr. Lynd's position now is that of adviser to the American Embassy, he will act in reality as an ambassador, to be named ambassador when a stable government is organized and recognition is extended by the United States.

Disappointment in Mexico.

Mexico City, Aug. 5—The news of the dismissal of Henry Lane Wilson, the American Ambassador, and the appointment by President Wilson of ex-Governor Lind, of Minnesota, to come to Mexico as a special peace emissary has caused keen disappointment and a good deal of apprehension amongst Americans and also amongst Mexicans here. Strong belief here prevails that the course of action taken by the United States administration is unwise, and so far from reconciling opposing factions the more probable result will be to make the existing confusion worse confounded.

General Huerta has emphatically declared that he will neither resign nor accept mediation, and it is feared that President Wilson's peace emissary will make little or no impression upon him until the United States makes formal recognition of his government.

C. N. ARMSTRONG ON IRISH HOME RULE

London, Aug. 5.—C. N. Armstrong, of Montreal, who is the Conservative candidate for Colne Valley, declares he would not object to Ireland having the same kind of Home Rule as Canada has. He would have such a system applicable to Scotland and Wales, as the House of Commons had too much in hand already to attend to trifling local matters. He added, there is too much blind party following at Westminster, and he wants to represent those who are opposed as well as those voting for him.
